

Strawberry Hibiscus Lip Balm

a light & moisturizing scented lip balm

Ingredients

- 15 grams White Beeswax Pellets
- 30 grams Mango Butter
- 15 ml Organic Hibiscus Seed Oil
- 15 ml Strawberry Seed Oil
- 15 ml Organic Clear Jojoba Oil
- 0.65 ml (1/8 teaspoon) Cherry Plant-Based Fragrance Oil, optional
- 3/4 teaspoon FDA Coral Mica

Makes about six 0.3 ounce tubes

Directions:

1. In double-boiler, combine beeswax, mango, and jojoba oil and heat gently over medium-high heat until ingredients are fully melted and combined.
2. Remove double-boiler from heat and add hibiscus and strawberry seed oils. Stir well, then add mica and plant-based fragrance oil, if using.
3. Pour melted balm carefully into lip balm tube containers. Allow balms to fully cool and harden before handling.

Usage & Packaging:

- We packed our Strawberry Hibiscus Lip Balm in our 0.3 Ounce Paperboard Tubes. We love how the natural color of the paper contrasts with the cheerful color of the balm. You can also use any standard lip balm container for this recipe - including our Plastic Lip Balm Tubes, our Lip Balm Slider Tins, or our Clear Lip Balm Jars.
- To use, simply apply to dry lips as often as you like. Strawberry Hibiscus Lip Balm doesn't add much color to lips alone, but can be used under lip color for an extra pop of moisture.
