

Candy Corn Bath Bomb Parfaits

multicolored fizzing bath treats

Ingredients

For the Base

- 284 grams (10 ounces) Baking Soda
- 113 grams (4 ounces) Citric Acid
- 6 grams (.20 ounces) White Kaolin Clay
- 14 grams (.50 ounces) Sweet Almond Oil
- 14 grams (.50 ounces) Vanilla Fragrance Oil
- 14 grams (.50 ounces) Cocoa Butter, Deodorized (melted)
- 25 drops Liquid D&C Orange #4
- 25 drops Liquid FD&C Yellow #5
- Witch Hazel, as needed for spritzing

For the Frosting

- 284 grams (10 ounces) Baking Soda
- 57 grams (2 ounces) Citric Acid
- 43 grams (1.5 ounces) Cocoa Butter, Deodorized (melted)
- 20 drops of Vanilla Fragrance Oil
- 14 grams (.50 ounces) Cream of Tartar
- Holiday Sprinkles (optional)

Makes approximately three 284 gram (10 ounce) bath bombs

Directions:

For the Base

1. Combine baking soda and kaolin clay in mixing bowl and stir well, breaking up any clumps.
2. Melt cocoa butter and add to bowl followed by almond oil and fragrance oil. Mix very well.
3. Separate mixture evenly into 3 bowls. Add 25 drops Orange #4 to first bowl and mix until evenly colored. Add 25 drops Yellow #5 to second bowl and mix until evenly colored. Leave third bowl white.
4. Divide citric acid evenly into three parts and add one to each bowl. Mix well until the product is evenly moistened. The texture should be similar to wet sand and should clump together easily when pressed. If it's still too dry, give a couple of spritzes of Witch Hazel to moisten further.
5. Divide the yellow powder into three equal portions (about 35 grams or 1.25 ounces each). Press the powder into the bottom of the mold and press firmly to compress. Repeat with the remaining two colors.
6. Gently remove bath bombs from molds and set aside.

Candy Corn Bath Bomb Parfaits

multicolored fizzing bath treats

For the Frosting

1. Combine baking soda and cream of tartar in bowl and mix well.
2. Add fragrance oil and melted cocoa butter. Mix well. The mixture will start to feel sticky, similar to dough.
3. Add citric acid and mix again to distribute evenly.
4. Allow the mixture to cool, if necessary, until it is warm but still pliable. Put mixture into piping bag with frosting tip. (We used a Wilton 1M tip.)
5. Pipe "frosting" onto bath bombs. Top with sprinkles.
6. Allow bath bombs to cure and dry until they are rock hard (about 24 hours) before packaging.

Usage & Packaging:

- Bath bombs should be packaged in air-tight material in order to prevent them from being spoiled by moisture or humidity. Our Small Cello Bags are just right for this purpose.
- To use, simply drops a bath bomb into bath water and enjoy. The bath bomb will fizz, dissolve, and melt in a matter of minutes.
